SUMMARY

B.Tech Information Technology graduate (2026) who builds full-stack web apps and practical Generative AI. As an AI intern at Prayag.ai, built an AI-powered business development agent in Python, automated data extraction from client emails with the OpenAI GPT-4 API and designed RAG-based chatbot architectures. Now on a career break studying Data Science with AI at DataMites (Python, machine learning, NLP, big data). Looking for data analyst, data science, AI/ML and full-stack roles.

EXPERIENCE

Artificial Intelligence Intern — Prayag.ai Palakkad, Kerala (on-site) | Jun 2025 – Apr 2026

- Built an **AI-powered business development agent** in Python.
- Integrated the **OpenAI GPT-4 API** to automate data extraction from client emails.
- Designed **RAG-based chatbot architectures**.

EDUCATION

DataMites — Data Science with AI *(certification course, full-time career break)* Jun 2026 – Present

- Python, machine learning, advanced data science, NLP, database management, big data foundations, AI and automation.

Karpagam Institute of Technology, Coimbatore Nov 2022 – Apr 2026

Bachelor of Technology in Information Technology — CGPA 7.83

PROJECTS

Zero-ETL Analytics Platform · DuckDB, PostgreSQL (Supabase), Parquet, S3 / MinIO, Python, Streamlit 2026 – in progress

- Federated analytics dashboard that queries data where it lives: DuckDB joins live PostgreSQL tables with Parquet web logs in object storage, with no ETL copy pipeline, to keep data movement and egress costs low.

Financial Analytics & Expense Tracker · MongoDB, Express.js, React.js, Node.js, Chart.js

- Analytics dashboard with spending charts, JWT authentication and a MongoDB schema designed for the reports.

Notes App · MongoDB, Express.js, React.js, Node.js

- Responsive notes app with create, edit and delete; JWT-based authentication and encrypted storage so each user sees only their own notes.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, Java
Data and AI	OpenAI API (GPT-4), RAG, LLM integration, Generative AI; learning machine learning, NLP and big data
Web	React.js, Node.js, Express.js, REST APIs, JWT authentication, Chart.js
Databases	PostgreSQL, MongoDB
Tools	Git

CERTIFICATIONS

- Web Security: User Authentication and Access Control — LinkedIn Learning (Feb 2025)
